PROGRAMMING SKILLS

Java C# Python JavaScript ANSI SQL
MongoDB React Spring Boot .NET Framework

EDUCATION

B.Tech | Koneru Lakshmaiah Education Foundation

📅 08 2022 – 05 2026 📍 Vijayawada, India
• Current CGPA: 9.3 (No Backlogs)

Intermediate | Sri Sarada Junior College

📅 07 2020 – 04 2022 📍 Vijayawada, India
• Percentage: 83.9%

SSC | Ravindra Bharathi Public School

📅 06 2019 – 03 2020 📍 Vijayawada, India
• Percentage: 100%

PROGRAMMING PROFILE

- leetcode.com/u/Jai_Sudharsh/
- codechef.com/users/jai_sudharsh
- hackerrank.com/profile/h2200032246

LANGUAGE PROFICIENCY

- Linguaskill B1 (CAMBRIDGE ENGLISH)
- (Japanese Language) NAT 5Q Certified

CERTIFICATIONS

- AWS Certified Cloud Practitioner || AWS CLF-C02
- Red Hat Certified Enterprise Application Developer || REDHAT EX183
- Automation Anywhere RPA Essentials
- Salesforce AI Associate

VIRTUAL INTERNSHIPS

- AICTE EDUSKILLS CLOUD INTERNSHIP
- ETHICAL HACKING INTERNSHIP BY INTER-SHALA

PROFESSIONAL SUMMARY

- Aspiring Software Engineer with strong academic performance and hands-on experience in full-stack development, cloud technologies, and scalable application design. Passionate about building innovative, high-quality software solutions with a focus on performance, security, and collaboration.

CORE SKILLS

- Spring Boot, .NET Framework, React Vite, Django, Express
- Databases: SQL Server, MongoDB, MySQL, PostgreSQL
- Core Concepts: OOP, Data Structures
- Cloud: AWS (Certified Cloud Practitioner)
- Containerization: Docker
- SDLC, Unit Testing, Bug Tracking, Documentation
- Cybersecurity fundamentals, Networking basics
- Agile/Scrum, Teamwork, Communication

SOFT SKILLS

Leadership Effective Communication Problem-Solving
Teamwork Adaptability Time Management Agile Mindset

PROJECTS

SMART MOBILE Enterprise Web Application | React Vite, Express, Supabase

- Built and deployed a full-stack web app for a smartphone retail store using React (Vite), TypeScript, Tailwind CSS, Express.js, and Supabase. Enabled product listings, customer inquiries, and inventory display. Actively maintained and updated based on user feedback.

Secure Password manager | React Vite, Express, AWS, Supabase

- Developed using React, Express and AWS RDS enabling encrypted data storage with secure retrieval with JWT authentication. Integrated AWS Amplify for deployment and user authentication, Bcrypt-JS for encryption, Secret Key for user verification.

Feedback Evaluation Platform | Spring Boot, React

- Applied Spring Boot framework to build scalable and maintainable backend services, MySQL for optimizing query performance. Led a team of 4 developers, implemented Agile practices Like Scrum and Kanban.
